

## The Insights into Integration (I2I) initiative has been designed at the request of the Norfolk & Suffolk Workforce Partnership Board for health and social care.

I2I provides an opportunity for professionally qualified staff within the first few years of their career to reflect on their own roles, and the services they provide, in the context of delivering care in an integrated collaborative way with other health and social care providers across Norfolk and Suffolk.

It is intended that the I2I initiative will be a positive learning experience, enhancing the participant's leadership and communication skills.

- ✓ Are you a professionally qualified individual working in health and/or social care?
- ✓ Have you recently completed your first year in role post-qualification/registration?
- ✓ Are you enthusiastic about improving service user/patient care and working collaboratively across organisations?
- ✓ Are you committed to your continuous professional development?
- ✓ Are you delivering well in your current role and looking at your next career goals?

### The I2I initiative learning cycle

If you answered 'yes' and are interested in participating in the Insights to Integration initiative please **contact the Education Lead within your organisation for more information**

For general information about I2I please contact Sue Hill from the Norfolk and Suffolk Workforce Partnership [sue.hill11@nhs.net](mailto:sue.hill11@nhs.net) or 07785 574229

*All Expressions of Interest must be sent to your workplace Education Lead*
